

# Maxim™ Adjustable Keyboard

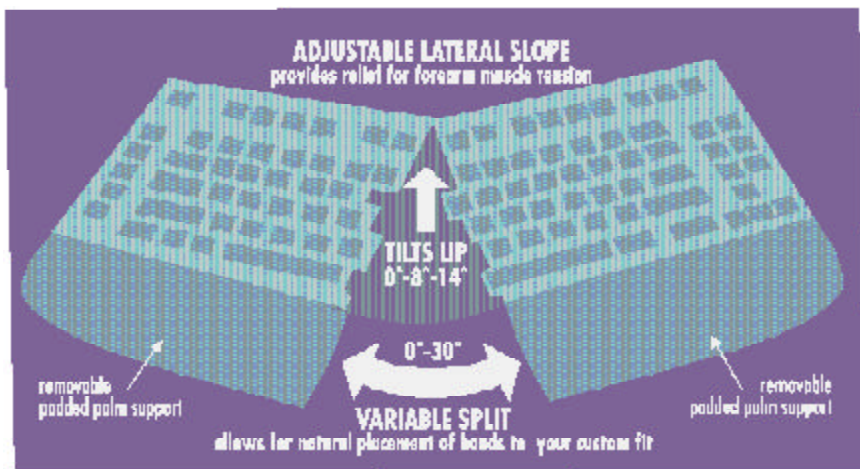

For PS/2 & USB

The Maxim is simply the best adjustable keyboard at any price!

## A More Flexible Design...

The Kinesis Maxim™ adjustable ergonomic keyboard allows users to comfortize™ keyboard geometry without needing an adaptation period to reach full productivity. Easy setup and simple adjustment minimize down time and provide for excellent comfort and performance. The Maxim is a formula for ergonomic success...

## Features For Comfort

- **Variable split:** user-selectable separation angle (**0 to 30 degrees**) between left and right keys to straighten wrists.
- **Adjustable lateral tilt:** two “tent” settings (**8, 14 degrees**) offering almost twice the tilt of the Microsoft Natural keyboard. This allows users to minimize forearm muscle tension without the pitfalls of excessive tilt.
- **Removable palm supports:** with the padded supports, palms rest on the soft surface to relax neck and shoulders. Palm supports are easily removable if desired. Comfortable, self-adhesive palm pads provided.
- **Quiet, low-force, tactile switches:** switches provide a soft touch and positive feedback.
- **Stable, flexible configuration:** instantly achieves stable, reproducible adjustments to satisfy user’s preferences. Easy transition between multiple users. Optional dedicated 10-key provides for flexible positioning.

## Keyboard Models...

- **Savant Programmable Keypad (USB or PS/2).** This device adds flexibility and boosts productivity for anyone with repetitive commands or tasks. It has relegendable, low-force, long-lasting mechanical keys. Savant keypads are available in either a 20-key or 58-key size and offered in both USB and PS/2 versions. A user-selectable “layer-toggle” action allows each physical key to support two different functions. Optional double-wide and double-tall keycaps, colored keycaps and even custom colored legends are available for special applications. USB version programmable only in Windows 98/2000/XP but usable in virtually any USB environment.

- **Savant Programmable Foot Switches (USB or PS/2)** This device relieves hand and arm strain and boosts productivity by replacing awkward reaches and reducing overuse of fingers and hands. It is available for either USB (AC004USB) or PS/2 (AC004PF). USB version is programmable only in Windows 98/2000/XP but usable in virtually any USB environment, and is factory programmed so that in Windows 2000/XP it can perform mouse click actions as well.

- **Solution™ Platform Systems** Designed specifically for Kinesis keyboards, our *Solution* platform system incorporates an elegant, ultra thin keyboard tray (26 or 30 inch tray lengths) attached to a 17 inch or 22 inch fully adjustable arm. The platform slides on a ball bearing track and stores conveniently underneath desk when not in use.

- **NoteStand™ Notebook Riser** The Kinesis NoteStand notebook riser is an elegant, yet incredibly sturdy and lightweight adjustable support for your notebook computer. The NoteStand positions your laptop screen closer and at eye level, improving visibility and reducing the hunched posture usually created with notebook computers.

With eight pre-set adjustment angles, the NoteStand quickly and easily positions your laptop screen at your preferred height.

- **The Perfit Mouse Family**

The ultimate in comfort! Manufactured by Contour Design, the Perfit mouse is the only pointing device designed to fit your hand. Comes in five sizes for both left and right hand users. Available for PS/2, USB & Sun ports. Please email or call for details.

- **Cirque Cruise Cat™, Smart Cat™ & Easy Cat™**

We offer three models of the popular Cirque touchpads. Choose the one that best fits your feature and space requirements. Available for both PS/2 & USB.

- **The LaunchPad Palm Rest (AC009LPP).** Supports the weight bearing areas of your palm and greatly reduces wrist extension. Allows your fingers to fall in a relaxed posture onto your mouse or other input device. The leather palm rest is adjustable for height and contour and supports your wrist in a relatively straight and supinated position. An excellent companion to our Maxim and Savant keypads, Cirque touchpads and Logitech and Kensington Trackballs.

- **Replacement Palm Pads (AC205PP).** Self-adhesive for easy replacement of originals when worn.
