

HEROES

I- Match the photos to the descriptions of the characters :

a. Niki Sanders, a single mother who struggles to support her exceptionally gifted young son's private school education and whose mirror image has a secret.

b. Claire Bennet, a high school cheerleader in Odessa, Texas, who learns through trial-and-error that her flesh is indestructible.

c. Mohinder Suresh, a genetics professor at the University of Madras in India whose father's disappearance leads him to uncover a secret theory - there are people with extraordinary abilities living among us.

d. Isaac Mendez, a heroin-addicted artist whose dark, violent and apocalyptic paintings are actual premonitions of future events.

e. Nathan Petrelli, Peter's over-achieving brother who is running for political office. He pretends that Peter is delusional with his fantasies of flight, but, in actuality, Nathan has a secret of his own.

f. Matt Parkman, a down-on-his-luck LAPD beat cop who is starting to hear the thoughts of others, which puts him on the trail of an elusive serial killer.

g. Micah Sanders, a young genius whose mother is an online stripper and whose father is serving life in prison.

h. Hiro Nakamura, a Tokyo nonconformist computer/anime enthusiast who develops a way to pierce the space-time continuum and move back in time through sheer will power.

i. Peter Petrelli, a male nurse and politician's younger brother who is plagued by nightmares that he can fly.

j. Simone Deveaux, Isaac's beautiful girlfriend who enables his heroin addiction and whose wealthy father is dying.

II- Complete the following summary with the words below:

girlfriend – politician – thoughts – son – secret – time – destiny – future – image – artist –eclipse – genetics –super powers – serial killer – cheerleader

As a total _____ casts its shadow across the globe, a _____ professor in India is led by his father's disappearance to uncover a _____ theory -- there are people with _____ living among us.
