

Roles

First the **Heroic Historian** will create the background information for the character. Where does he/she come from? What can you imagine about his/her early history? What turned him/her into a super hero?

Then the **Bionic Biographer** will take that information and create the super powers for the character. What sort of super hero have we got now? Can you describe his/her powers, their extent and their effects? (NB : do **not** write about the hero's costume, this is not your job).

The **Villain Creator** will then create a villain for your character. (groups of 3 will not be able to have a Villain Creator)

This has to be a very complete biography, including the historical background and presentation of a villain. You have to work in conjunction with the Historian and the Biographer, to understand who your character fights all the time! The Agile Artist will have to design his/her costume, so tell him/her what sort of villain you are creating.

The **Agile Artist** will design the costumes and equipment for the characters. This has to correspond to the other team members' ideas. Remember that your job does not only consists in drawing sketches : you will have to describe and justify your creations!

Objectives

Each member of the group will have to present his/her work to the class. You may use visual aids such as drawings, posters etc to introduce your character(s), but the most important is what you will explain : so try to be clear and organized !
