

## **A UNIVERSAL DECLARATION OF RESISTANCE TO MANDATORY VACCINATIONS**

**We the undersigned, as Freeman & Freewomen, do not recognize the authority of The World Health Organization (WHO) to mandate general forced vaccinations. Our bodies are sovereign territory and subject to our exclusive self-determination. Any attempted violation of this trust must be construed as a breach of said basic right. We are thus holding our elected Governments accountable in this defense with an issuance of notice: a preemptive Class Action Lawsuit to be served in the event our inalienable rights to choose are forsaken.**

WORLD HEALTH ORGANIZATION checklist for influenza pandemic preparedness planning: Section 1.5.1 Legal and ethical issues -

'During a pandemic, it may be necessary to overrule existing legislation or (individual) human rights. Examples are the enforcement of quarantine (overruling individual freedom of movement), use of privately owned buildings for hospitals, off-license use of drugs, compulsory vaccination or implementation of emergency shifts in essential services. These decisions need a legal framework to ensure transparent assessment and justification of the measures that are being considered, and to ensure coherence with international legislation (International Health Regulations).

<http://www.who.int/csr/resources/publications/influenza/FluCheck6web.pdf>

**There is no forensic evidence showing the H1N1 virus as the direct cause of death in those who have died after contracting the virus (144 to date). The majority of deaths are caused by pre-existing complications and auto-immune deficiencies. Countries with low quality of health have the greatest number of fatal cases. Based on the Center for Disease Control's own guidelines H1N1 related symptoms are virtually indistinguishable from those of the common seasonal flu, and severity is comparable to mild seasonal flu,**

'The symptoms of this new H1N1 flu virus in people are similar to the symptoms of seasonal flu and include fever, cough, sore throat, runny or stuffy nose, body aches, headache, chills and fatigue. A significant number of people who have been infected with this new H1N1 virus also have reported diarrhea and vomiting. The high risk groups for novel H1N1 flu are not known at this time but it's possible that they may be the same as for seasonal influenza. People at higher risk of serious complications from seasonal flu include people age 65 years and older, children younger than 5 years old, pregnant women, people of any age with chronic medical conditions (such as asthma, diabetes, or heart disease), and people who are immunosuppressed (e.g., taking immunosuppressive medications, infected

with HIV).'

<http://www.cdc.gov/h1n1flu/sick.htm>

**GlaxoSmithKline are the major Pharmaceutical developers behind the H5N1 Avian Flu vaccine. Given the fact the new H1N1 strain is an Avian/Swine/ Human hybrid it is likely this component will be used as part of the 3 shot regime,**

'GSK's proprietary adjuvant is called ASO4. It contains alum and MPL. MPL stands for monophosphoryl lipid A. The U.S. Army's proprietary (unlicensed) adjuvant developed prior to the first Gulf War for use in a second generation anthrax vaccine was called Tri-Mix or Triple Mix. Tri-Mix contained MPL (monophosphoryl lipid A) and squalene. After the war, Army scientists considered MPL to be too toxic, so they began working with Chiron Corporation of Emeryville, CA to develop an adjuvant that contained squalene and water only ... on the assumption that adjuvant toxicity with Tri-Mix was due to MPL. This assumption also proved incorrect. There are more than two dozen animal studies that generated data demonstrating squalene's ability to induce autoimmunity; and there is disputed evidence that nanodoses of squalene in anthrax vaccine sickened countless military personnel who received squalene-tainted vaccine during AVIP. MPL was also a component of the Ribi Adjuvant System. The Ribi Adjuvant System, or RAS, is a derivative of Tri-Mix, which is approved for use in animals only. There is no existing data showing whether MPL elicits an immune response specific to it. If MPL is immunogenic, it raises the possibility of a dangerous "cross reaction." The human body is full of lipids. Antibodies and immune cells responding to MPL might also respond to other lipids in the body, thus breaking tolerance for endogenous lipids (those native to the human body) and initiating autoimmunity.' Gary Matsumoto - Journalist/Author of Vaccine A  
[http://www.whale.to/vaccine/secret\\_adjuvant.html](http://www.whale.to/vaccine/secret_adjuvant.html)

**The risk of a widespread outbreak of Gulf War Syndrome amongst the general population is inevitable - assuming the same H5N1 squaline adjuvant is utilized on H1N1 (Adjuvants are pharmacological or immunological agents that modify the effect of other agents). Further the vaccine administered produces little antibody response. Therefore it requires 12 times the normal dose in order to be 'effective'. Such a gamble where our lives are concerned is non-negotiable.**

**Pharmaceutical Companies (Novartis among others) stand to reap a huge windfall during such a crisis. We are not willing to wager our safety for Industry profits under any conditions,**

'The swine flu outbreak is going to benefit one of the most prolific and successful

venture capital firms in the United States: Kleiner, Perkins, Caufield & Byers. Share prices have already risen for two of eight public traded companies in the firm's portfolio of Pandemic and Bio Defense investments. BioCryst, up more than 26 percent, to \$2.21 per share, and Novavax, maker of viral vaccines, escalated 75 percent to \$1.42 per share on the first announcement of the swine flu outbreak in Mexico.'

[http://drtenpenny.com/swine\\_flu.aspx](http://drtenpenny.com/swine_flu.aspx)

**The lack of sufficient testing on this experimental vaccine raises many concerns. There is no criteria on its efficacy or valid statistics to speak of,**

'Novavax uses genetic information and "recombinant, virus-like particle technology" to rapidly engineer a vaccine. Its technology has only been through Phase II clinical trials but might be released prematurely. Novavax's CEO, Rahul Singhvi announced Friday, "There is an emergency authorization avenue that is available that would allow us to use the vaccine in an emergency without further testing." The Division-E provisions would protect the company from all liability.'

[http://drtenpenny.com/swine\\_flu.aspx](http://drtenpenny.com/swine_flu.aspx)

**H1N1 is an entirely unique strain, never seen before with all the hallmarks of a laboratory-produced designer virus,**

'Author of Emerging Viruses: AIDS And Ebola: Nature, Accident or Intentional?, Horowitz says the swine-bird-human flu strain, reported to be found first in Mexico in late-March 2009, could have only come from Dr James S. Robertson and his colleagues in association with the US Centre for Disease Control and vaccine manufacturer Novavax, Inc, which was ready to profit from the release he says. Nobody else takes H5N1 Asian-flu infected chickens, takes them to Europe, extracts their DNA, combines their proteins with H1N1 viruses from the 1918 Spanish flu isolate, additionally mixes in some swine-flu genes from pigs, then reverse engineers them to infect humans, he said.

<http://uncensored.co.nz/2009/04/30/dr-horowitz-mexicanswine-flu-made-in-lab/>

**During the 1976 Swine scare the Swine Flu vaccine itself killed hundreds & sickened countless others,**

'Only young Lewis (19-year-old Pvt. David Lewis of Ashley Falls, Mass) died from the swine flu itself in 1976. But as the critics are quick to point out, hundreds of Americans were killed or seriously injured by the inoculation the government gave them to stave off the virus.'

<http://www.capitalcentury.com/1976.html>

**The United Nations which oversees the WHO has been implicated in the promotion of live viruses & eugenics-type sterilization programs throughout the past, based on verifiable data. We will not be their guinea-pigs any more. We unanimously uphold this decision. The onus then is on the WHO to prove its own safety record. Any reports or rebuttals issued by them are subject to an independent investigation by council of our choosing,**

National Security Council Document 20506: Implications of Worldwide Population Growth for U.S. Security and Overseas Interests -

This memorandum drafted by Henry Kissinger led directly to the unleashing of experimental vaccines on the unsuspecting public. 3 million Filipinos ages 12-48 were given a test vaccine that ruined their health. North American Black & Native American Women were each given the same vaccine resulting in sterility rates of 25% & 35% respectively. The directive came from the WHO and was directly tied to Kissinger's report.

<http://www.scribd.com/doc/6474391/Henry-Kissinger-Population-Control-Document>

It followed a 1972 report issued by the World Health Organization which referred to a virus requested which would selectively destroy the Human T Cell System. It sighted countries as targets for "initial population reduction experimentation to be implemented around the year 2000". They identified India, Bangladesh, Pakistan, Nigeria, Mexico, Indonesia, Brazil, Philippines, Thailand, Egypt, Turkey, Ethiopia & Columbia for study. Which co-incidentally shortly preceded the outbreak of Aids in Africa, America & elsewhere. The determining factor most common in Aids victims is the breakdown of the T Cell System in the body. Another coincidence.

[http://whqlibdoc.who.int/bulletin/1972/Vol47/Vol47-No2/bulletin\\_1972\\_47\(2\)\\_211-227.pdf](http://whqlibdoc.who.int/bulletin/1972/Vol47/Vol47-No2/bulletin_1972_47(2)_211-227.pdf)

**In the event that mandatory vaccinations are legislated under conditions of a supposed/genuine Pandemic we are calling for independent research of the vaccines - by a team of licensed health care professionals of our choosing, before delivering them to the distribution centers. All vaccines will be tested for contamination & safety. Ongoing monitoring of those vaccinated will be kept in an up-to-date data system. If the WHO or their distributors are discovered to be willfully spreading a toxic product they will be prosecuted to the fullest extent of the Law. We will mandate a public investigation to root out those responsible & justice will be served. In this respect we will also hold our own Governments**

fully accountable.

We, the undersigned, stand united in support of this Petition.

**LIST OF VACCINE FILLERS: Officially administered by design with every vaccine provided to the public -**

In addition to the viral and bacterial RNA or DNA that is part of the vaccines, here are the fillers:

aluminum hydroxide

aluminum phosphate

ammonium sulfate

amphotericin B

animal tissues: pig blood, horse blood, rabbit brain,

dog kidney, monkey kidney,

chick embryo, chicken egg, duck egg

calf (bovine) serum

betapropiolactone

fetal bovine serum

formaldehyde

formalin

gelatin

glycerol

human diploid cells (originating from human aborted fetal tissue)

hydrolyzed gelatin

monosodium glutamate (MSG)

neomycin

neomycin sulfate

phenol red indicator

phenoxyethanol (antifreeze)

potassium diphosphate

potassium monophosphate

polymyxin B

polysorbate 20

polysorbate 80

porcine (pig) pancreatic hydrolysate of casein

residual MRC5 proteins

sorbitol

sucrose

thimerosal (mercury)

tri(n)butylphosphate,

VERO cells, a continuous line of monkey kidney cells

washed sheep red blood cells

**\*This data is available via: [www.mercola.com](http://www.mercola.com)**

**<http://articles.mercola.com/sites/articles/archive/2001/03/07/vaccine-ingredients.aspx>**

**These additives are given without public knowledge or consent. Merck, the monster pharmaceutical giant in the US produces the vast majority of vaccine supplies & are protected from prosecution by Federal Statutes imposed under the former Bush administration.**

### **Analysis of vaccine additives**

- 1) ALUMINUM (two variants) - directly linked with Alseimer's Disease**
- 2) AMMONIUM SULFATE - an inorganic chemical compound used a fertilizer and "protein purifier"; known to cause kindey & liver damage, gastrointestinal disfunctions**
- 3) AMPHOTERICIN B - an "antifungal disinfectant", damages the urinary tract, bowels, heart functions,**
- 4) RE-CYCLED ANIMAL TISSUE (multiple) - the building blocks of Mad Cow Disease**
- 5) FORMALDEHYDE - used as "a preservative & disinfectant", known to cause cancer, chronic bronchitis, eye irritation when exposed to the body's immune system**
- 6) MSG - now known to cause cancer in humans**
- 7) PHENOL - a highly toxic disinfectant dye, attributed to liver, kidney, heart & respiratory damage**
- 8) PHENOXYETHANOL (ANTIFREEZE) - proven to have extreme neurotoxic side effects**
- 9) THYMEROSAL (MERCURY) - This additive alone was the catylist for another recent Class Action Lawsuit organized by mothers of children born with Autism & the many related behavioral disorders associated with it. Autism is now occurring at levels never seen before in history, 1 in 67. The average used to 1 in 20,000.**

**The vaccine resistance campaign has received a strong endorsement from Professionals throughout the Medical Industry. Some of our supporters:**

**Dr. William R. Deagle MD, ABFP, AAPM, SSPM, ACOEM, CIME, ACO -  
www.nutrimedical.com**

**, www.clayandiron.com**

**Injunction Against Forced Vaccinations**

**<http://mail.google.com/mail/?>**

**[ui=1&view=att&th=121da8941cfb26c2&attid=0.1&disp=vah&zw](http://mail.google.com/mail/?ui=1&view=att&th=121da8941cfb26c2&attid=0.1&disp=vah&zw)**

**Dr. Andrew Moulden PhD, B.A, M.A. Creator of Brainguardmd.com, Leader of Class Action Suit Against Vaccine Manufacturers**

**Dr. Mayer Eisenstein MD, JD, MPH, Author of 'Don't Vaccinate Before You Educate!'**

**Dr. Daniel Ellis - Minnesota**

**Paula Jackson - Registered Nurse**

**Cindy Czocher - Registered Nurse**

**Mary R. Brown - Pediatric Nurse**

**We also proudly carry the signatures of current & former Armed Service Members and countless other patriots throughout the world community who have joined together in support of this campaign.**

**This petition is a rally cry to all those in favor of exercising our inherent right to self-determination. Please join our brave campaign which will ultimately enable us to challenge our elected Governments to defend our inherent right to choose. Thank you all!!!**

**UPDATE: We can't expect the World Health Organization to recognize the validity of this Petition alone. Similarly our elected Governments & Courts routinely refute online Petitions. That is why I believe we have to adopt an alternate approach to ensure our voices are heard - Traditional hand-to-hand signed Petitions verifiable in any Court of Law. We need to work collectively to achieve our goal on schedule. Is this asking too much? I hope not. Can**

everyone paste a clean copy (copies) of the Petition and get it out there. You'll also require a tally sheet for multiple signatures. Perhaps one of our members could whip up a generic form page as such and post it here? It should be pretty straightforward. There are many locations in which to get this Petition seen & signed: coffee rooms, cafeterias, bulletin boards, events, all around the office, libraries, churches, synagogues, gyms, bookstores, fence posts, Please be consistent by keeping track of the numbers tallied. A good idea might be posting several sheets per location. We'll have to decide on a central location to receive all these forms once we have the numbers accumulated. In the end we can answer all the naysayers, cynics & inevitable Government bureaucracy with an overwhelming resounding response from every country around the world. An event to rival the climax of 'Mr. Smith Goes To Washington' in which Petitions flooding in from ordinary citizens changed history. I do believe we can truly change history with an historic show of proactive peaceful force.

"We can do this the easy way or we can this the hard way but it's going to have to get done." - Glenn Ivey/Prince George's County State's Attorney/ Maryland, USA on new mandatory Vaccination Legislation imposed on Gr.5 - Gr. 10 students to have Chicken Pox & Hep B Vaccines

"When we give government the power to make medical decisions for us, we, in essence, accept that the state owns our bodies." U.S. Representative Ron Paul
