

## DECISION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

on the rules for access to the public regulated service provided by the global navigation satellite system established under the Galileo programme

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 172 thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national Parliaments,

Having regard to the opinion of the European Economic and Social Committee<sup>1</sup>,

After consulting the Committee of the Regions,

Acting in accordance with the ordinary legislative procedure,

Whereas:

(1) Regulation (EC) No 683/2008 of the European Parliament and of the Council of 9 July 2008 on the further implementation of the European satellite navigation programmes (EGNOS and Galileo)<sup>2</sup> makes provision in its Annex that the specific objectives of the Galileo programme are to ensure that the signals emitted by the system can be used in particular to offer a public regulated service (hereinafter "PRS") restricted to government-authorised users, for sensitive applications which require *effective access control and* a high level of service continuity.

(1a) *While relevant provisions of Regulation (EC) No 683/2008 apply also to the services, including the PRS, listed in the Annex thereto, considering the inter-linkage between the system and the service from a legal, technical, operational, financial and ownership perspective, it is appropriate to reproduce the relevant rules on the application of security regulations for the purpose of this Decision.*

(3) *The European Parliament and the Council have recalled* on several occasions that the system resulting from the Galileo programme is a civilian system under civilian control, that is, it was created in accordance with civilian standards based on civilian requirements and under the control of the Union institutions.

(3a) *Galileo is of strategic importance for the independence of the Union regarding satellite navigation, positioning and timing services and will offer an important contribution to the implementation of the "Europe 2020" strategy for smart, sustainable and inclusive growth.*

---

<sup>1</sup> OJ C 54, 19.2.2011, p. 36.

<sup>2</sup> OJ L 196, 24.7.2008, p. 1.

- (4) Of the various services offered by European satellite navigation systems, the PRS is both the most secure and the most sensitive ***and is therefore suitable for services where robustness and complete reliability must be ensured.*** It must ensure service continuity for its participants, even in the most serious crisis situations. The consequences of infringing the security rules when using this service are not restricted to the user concerned, but could potentially extend to other users. Use and management of the PRS is therefore the joint responsibility of Member States in order to protect the security of the Union and their own security. Consequently, access to the PRS must be strictly limited to certain categories of user which are subject to continuous monitoring.
- (5) It is therefore necessary to define the ■ rules for access to the PRS and the rules for managing it, in particular specifying the ■ general principles relating to access, the functions of the various management and supervisory bodies, the conditions relating to ***manufacturing*** and security, and the export monitoring system.
- (6) With regard to the general principles of access to the PRS, given the actual purpose of the service and its characteristics, its use must be strictly limited ■, with ***Member States***, the Council, the Commission and the ***European External Action Service*** granted discretionary, unlimited and uninterrupted access worldwide. Furthermore, each Member State must be in a position to take its own sovereign decision on which PRS users to authorise and what uses may be made of the PRS, including uses relating to security, in accordance with minimum ■ standards.
- (7) ■ In order to promote ■ the use of European technology ***worldwide, certain non-member countries and international organisations could become PRS participants through separate agreements to be concluded with them.*** For secure government satellite radio navigation applications, the terms and conditions under which ■ non-member countries and international organisations may use the PRS should be laid down ***in international agreements, it being understood that compliance with security requirements should always be compulsory. In the context of such agreements, manufacturing of PRS receivers could be allowed, under specific conditions and requirements, being of a level at least equivalent to the conditions and requirements applying to Member States. However, such agreements should not include particularly security sensitive matters such as the manufacturing of security modules.***
- (7a) ***Agreements with non-member countries or international organisations will be negotiated taking full account of the importance of ensuring the respect of democracy, the rule of law, the universality and indivisibility of human rights and fundamental freedoms, protection of freedom of thought, conscience and religion as well as freedom of expression and information, respect for human dignity, the principles of equality and solidarity, and respect for the principles of the United Nations Charter and international law.***
- (7b) ***The security regulations of the European Space Agency should offer a degree of protection at least equivalent to that provided by the Commission's rules on security as set out in the Annex to Commission Decision 2001/844/EC, ECSC, Euratom<sup>3</sup> and by the security regulations of the Council set out in the Annex to Council Decision 2011/292/EU<sup>4</sup>.***

---

<sup>3</sup> OJ L 317, 3.12.2001, p. 1.

<sup>4</sup> OJ L 141, 27.5.2011, p. 17.

- (8) Generally speaking, the Union and the Member States must do their utmost to ensure that both the system derived from the Galileo programme and PRS *technology* and equipment are safe and secure, to prevent signals emitted for the PRS from being used by non-authorised natural or legal persons, and to prevent any hostile use of the PRS against them.
- (9) It is important in this connection that the Member States determine the system of penalties applicable in the event of non-compliance with the obligations stemming from this Decision, and that they ensure that those penalties are applied. The penalties must be effective, proportionate and dissuasive.
- (10) In the case of management and supervisory bodies, the arrangement whereby *PRS participants* would designate a "Competent PRS Authority" responsible for managing and supervising users would appear to be the best way of effectively managing PRS use, by facilitating relations between the various stakeholders responsible for security and ensuring permanent supervision of users (in particular national users) in compliance with the common minimum standards. *However, certain flexibilities should be ensured in order to allow Member States to organise the responsibilities efficiently.*
- (10a) *In the implementation of this decision, any processing of personal data should be carried out in accordance with Union law, as set out, in particular, in Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data<sup>5</sup> and in Directive 2002/58/EC of the European Parliament and of the Council of 12 July 2002 concerning the processing of personal data and the protection of privacy in the electronic communications sector (Directive on privacy and electronic communications)<sup>6</sup>.*
- (11) Furthermore, one of the tasks of the *Galileo Security Monitoring* Centre referred to in Article 16(a)(ii) of Regulation (EC) No 683/2008 should be to provide *an operational* interface between the various stakeholders responsible for the security of the PRS.
- (12) The Council *and the High Representative are* also called upon to play a role in managing the PRS, ■ through the application of Council Joint Action 2004/552/CFSP of 12 July 2004 on aspects of the operation of the European satellite radio-navigation system affecting the security of the European Union<sup>7</sup>. *The Council is also called upon to approve* international agreements authorising a non-member country or an international organisation to use the PRS.
- (13) With regard to receiver *manufacturing* and security, security requirements make it necessary for this task to be entrusted only to a Member State which has *designated a Competent PRS Authority* or to undertakings established on the territory of a Member State which has *designated a Competent PRS Authority*. Furthermore, the receiver manufacturer must have been duly *accredited* in advance by the *Security Accreditation Board in compliance with* Regulation (EU) No 912/2010<sup>8</sup> and must comply with the *decisions of the Security Accreditation Board*. It is the responsibility of the Competent PRS Authorities to continuously monitor compliance both with *this accreditation requirement and those decisions* and with specific technical requirements stemming from the *common* minimum ■ standards.

---

<sup>5</sup> OJ L 281, 23.11.1995, p. 31.

<sup>6</sup> OJ L 201, 31.7.2002, p. 37.

<sup>7</sup> OJ L 246, 20.7.2004, p. 30.

<sup>8</sup> OJ L 276, 20.10.2010, p. 11.

- (13a) *A Member States which has not designated a Competent PRS Authority should in any case designate a point of contact for the management of any detected harmful electromagnetic interference affecting PRS. This point of contact is a body or individual or an address that has the role of reporting point, which the Commission can contact in case of potentially harmful electromagnetic interference in order to remedy such interference.*
- (14) *With regard to export restrictions, exports outside the Union of equipment or technology and software relating to PRS use and relating to the development of and manufacturing for PRS, regardless of whether that equipment, that software or that technology are listed in Annex I to Council Regulation (EC) No 428/2009 of 5 May 2009 setting up a Community regime for the control of exports, transfer, brokering and transit of dual-use items<sup>9</sup>, must be restricted to those non-member countries which are duly authorised to access the PRS under an international agreement with the Union. A non-member country on whose territory a reference station housing PRS equipment and forming part of the system derived from the Galileo programme is installed shall not be considered merely by virtue of that fact to be a PRS participant.*
- (15) *In order to be able to adopt the common minimum standards, in the areas set out in the Annex and, if necessary, update these standards the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of the necessary amendments of the Annex to take account of developments in the programme. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level.*
- The Commission, when preparing and drawing-up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and Council.*
- (15a) *Because of their potential impact on the security of the system, of the European Union and of its Member States, both individually and collectively, it is essential that common rules concerning access to PRS and manufacturing PRS receivers and security modules are applied uniformly in each Member State. It is therefore necessary that the Commission should be empowered to adopt detailed requirements, guidelines and other measures in order to give effect to the common minimum standards. In order to ensure uniform conditions for the implementation of this Decision, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers<sup>10</sup>.*
- (15b) *The audits and inspections to be carried out by the Commission with the help of the Member States should, as appropriate, be carried out in a similar way as provided for in part VII of Annex III to Council Decision 2011/292/EU of 31 March 2011 on the security rules for protecting EU classified information<sup>11</sup>.*
- (15c) *Rules for access to the PRS offered by the global navigation satellite system established under the Galileo programme are a prerequisite for the implementation of the PRS. The*

<sup>9</sup> OJ L 134, 29.05.2009, p. 1.

<sup>10</sup> OJ L 55, 28.2.2011, p. 13.

<sup>11</sup> OJ L 141, 27.5.2011, page 17.

*Commission should analyze if a charging policy for PRS should be put in place, including with regard to non-member countries and international organisations, and report to the European Parliament and the Council on the outcome of this analysis.*

(16) Since the objective of this Decision – namely, to lay down the ■ rules under which the Member States, the Council, the Commission, the European *External Action Service*, the Union agencies, *non-member countries* and international organisations can access the PRS – cannot be sufficiently achieved by the Member States and can therefore, by reason of the scale of the proposed action, be better achieved at Union level, the Union may adopt measures in accordance with the principle of subsidiarity set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality set out in that Article, this Decision does not go beyond what is necessary in order to achieve that objective.

*(16a) As soon as the PRS will be declared operational, a reporting and review mechanism should be set in place.*

HAVE ADOPTED THIS DECISION:

Article 1  
Subject

This Decision lays down the ■ rules under which the Member States, the Council, the Commission, the *EEAS*, the Union agencies, *non-member countries* and international organisations may access the ■ PRS offered by the ■ GNSS established under the Galileo programme.

*Article 1a*  
*Definitions*

*For the purposes of this Decision, the following definitions shall apply:*

- (a) "PRS" means public regulated service.*
- (b) "PRS participants" means the Member States, the Council, the Commission, the EEAS as well as Union agencies, non-member countries and international organisations, insofar as such agencies, non-member countries and organisations have been duly authorised.*
- (c) "PRS users" means natural or legal persons duly authorised by a PRS participant to own or use a PRS receiver.*
- (d) "GSMC" means the Galileo Security Monitoring Centre which is the Galileo security centre referred to in Article 16(a)(ii) of Regulation (EC) No 683/2008 and Article 6(d) of Regulation (EU) No 912/2010.*
- (e) "Security Accreditation Board" means the Security Accreditation Board for European GNSS systems established by Article 11 of Regulation (EU) No 912/2010.*
- (f) "GNSS" means Global Navigation Satellite Systems.*
- (g) "EEAS" means European External Action Service.*
- (h) "European GNSS Agency" means the Agency established by Regulation (EU) No 912/2010.*

Article 2  
General principles concerning access to the PRS

2. *The Member States*, the Council, the Commission and the *EEAS* shall have *the right to* unlimited and uninterrupted access to the PRS worldwide.

3. It shall be for *each individual Member State*, the Council, the Commission and *the EEAS* to decide whether to use the PRS *within their respective competences*.

5. *Each Member State* which *uses* the PRS shall decide independently which categories of natural persons *residing* on its territory *or performing official duties abroad on behalf of that Member State* and legal persons established on its territory are authorised to *be PRS users*, as well as the uses to which it may be put, in accordance with *Article 8a and point 1 (i) and (ii) of the Annex*. Such uses may include security-related uses.

*The Council, the Commission and the EEAS shall decide which categories of their agents are authorised to be PRS users, in accordance with Article 8a and point 1 (i) and (ii) of the Annex.*

6. Union agencies may *become PRS participants* only *insofar as necessary to fulfil their tasks* and according to the detailed rules laid down in an administrative agreement concluded between the Commission and the agency.

7. Non-member countries or international organisations may *become PRS participants* only where, *in accordance with the procedure provided for in Article 218 of the Treaty on the Functioning of the European Union*:

- a) a security *of information* agreement *defining the framework for exchanging and protecting classified information* has been concluded between the Union and the non-member country or international organisation, *providing a degree of protection at least equivalent to that of the Member States*, and
- b) an agreement laying down the terms and conditions of the detailed rules for *access to* the PRS by the non-member country or international organisation has been concluded between the Union and the non-member country or international organisation. *Such an agreement could include the manufacturing, under specific conditions, of PRS receivers, at the exclusion of security modules.*

Article 4  
*Application of security regulations*

1. *Each Member State shall ensure that its national security regulations offer a degree of protection of classified information at least equivalent to that provided by the Commission's rules on security as set out in the Annex to Commission Decision 2001/844/EC, ECSC, Euratom and by the security regulations of the Council set out in the Annex to Council Decision 2011/292/EU and apply to its PRS users and to all natural persons resident on its territory and all legal entities established on its territory which handle EU classified information regarding the PRS.*

2. *Member States shall without delay inform the Commission of the adoption of national security regulations as referred to in paragraph 1.*

3. If it emerges that *EU classified information* relating to the PRS *has* been disclosed to *any person* not authorised to receive *it*, the Commission shall, *in full consultation with the Member State concerned*:

- (a) *inform the originator of the classified PRS data;*
- (b) *assess the potential damage caused to the interests of the Union or of the Member States;*
- (c) *notify to the appropriate authorities the result of this assessment accompanied by a recommendation to remedy the situation. These authorities shall inform the Commission without delay of the actions they intend to take or have already taken, including those aiming at preventing recurrence, as well as of the results of such actions; and*
- (d) *inform the European Parliament and the Council, as appropriate, of these results.*

## I

### Article 6 Competent PRS Authority

1. A Competent PRS Authority *shall be designated by*:

- (i) *each Member State, which uses the PRS and each Member State on whose territory any of the bodies referred to in Article 8(1) are established. In such cases, the Competent PRS Authority shall be established on the territory of the Member State concerned, which shall notify the designation to the Commission without delay.*
- (ii) *the Council, the Commission and the EEAS, if they use the PRS. In such a case, the European GNSS Agency may be designated as a Competent PRS Authority, in accordance with appropriate arrangements.*
- (iii) *Union agencies and international organisations, in accordance with the provision of the agreements referred to in Article 2(6) and (7). In such a case, the European GNSS Agency may be designated as a Competent PRS Authority.*
- (iv) *non-member countries, in accordance with the provision of the agreements referred to in Article 2(7).*

*1a. The costs for the functioning of a Competent PRS Authority shall be borne by the PRS participants who have designated it.*

*1b. A Member State which has not designated a Competent PRS Authority in accordance with paragraph 1(i), shall in any case designate a point of contact for assisting as necessary in the reporting of detected potentially harmful electromagnetic interference affecting the PRS. The Member State concerned shall notify such a designation to the Commission without delay.*

*1c. A Competent PRS Authority shall ensure that the use of PRS is in compliance with Article 8a and point 1 of the Annex and that:*

- (i) *PRS users are grouped for the management of PRS with the GSMC;*
- (ii) *the PRS access rights for each group or user are determined and managed;*
- (iii) *the PRS keys and other related classified information are obtained from the GSMC;*
- (iv) *the PRS keys and other related classified information are distributed to the users;*
- (v) *the security of the receivers and associated classified technology and information are managed and the risks assessed;*
- (vi) *a point of contact for assisting as necessary in the reporting of detected potentially harmful electromagnetic interference affecting the PRS is established.*

*1d. The Competent PRS Authority of a Member State shall ensure that a body established on the territory of that Member State may only develop or manufacture PRS receivers or security modules if such a body:*

- (i) *has been duly accredited by the Security Accreditation Board in accordance with Article 11(2) of Regulation (EU) No 912/2010, and*
- (ii) *complies both with the decisions by the Security Accreditation Board, and with Article 8a and point 2 of the Annex regarding the development and manufacture of PRS receivers or security modules, insofar as these relate to its activity.*

*Any equipment-manufacture accreditation provided for in this paragraph shall be reviewed at least every five years.*

*1f. In case of development or manufacturing referred to in paragraph 1d, or in the case of export outside the Union, the Competent PRS Authority of that Member State shall act as an interface to the entities competent for export restrictions of relevant equipment, technology and software regarding the use, development and manufacturing of PRS, in order to ensure that the provisions of Article 9 are applied.*

*1g. A Competent PRS Authority shall be connected to the GSMC in accordance with Article 8a and point 4 of the Annex regarding the links between the GSMC and a Competent PRS Authority.*

*1h. Paragraphs 1c and 1g shall be without prejudice to the possibility for Member States to delegate certain specific tasks of their respective Competent PRS Authority, by mutual consent, to another Member State, excluding any tasks related to the exercise of the sovereignty over their respective territory. Tasks referred to in paragraphs 1c and 1g as well as tasks under paragraph 1d may be carried out jointly by Member States. The Member States concerned shall notify such measures to the Commission without delay.*

*1i. A Competent PRS Authority may request the technical assistance of the European GNSS Agency in order to perform its tasks, subject to specific arrangements. The Member States concerned shall notify such arrangements to the Commission without delay.*

**I**

*6a. The competent PRS authorities shall report every three years on the compliance with the common minimum standards to the Commission and to the European GNSS Agency.*

7. The Commission shall, with the help of [ ] the European GNSS Agency, **report every three years on the compliance of** the Competent PRS Authorities [ ] with the **common minimum [ ] standards to the European Parliament and the Council, as well as in any case of serious violation of them.**

8. Where a Competent PRS Authority does not comply with the **common minimum [ ] standards set out in Article 8a**, the Commission may, **taking due account of the subsidiarity principle and in consultation with the Member State concerned – and, if necessary, after obtaining further specific information – issue a recommendation. Within three months from the issuance of the recommendation, the Competent PRS Authority concerned shall either carry out the Commission’s recommendation or request or propose other changes with a view to ensuring compliance with the common minimum standards as referred to in Article 8a and implement them in agreement with the Commission.**

**If, once this three-month period has expired, the relevant Competent PRS Authority still does not ensure compliance with the common minimum standards, the Commission shall inform the Council and the European Parliament and propose appropriate measures to be taken.**

#### Article 7

##### Role of the *Galileo Security Monitoring* Centre

The *GSMC* shall provide the **operational** interface between the Competent PRS Authorities, the Council **and the High Representative** acting under Joint Action 2004/552/CFSP and the **control** centres. It shall inform the Commission of any event that may affect the smooth running of the PRS.

#### Article 8

##### Manufacture and security of receivers and security modules

1. A Member State [ ] may, **subject to the requirements set out in Article 6(1d), assign the task of manufacturing** PRS receivers **or** the associated security modules [ ] to **bodies established on its territory or** on the territory of **another** Member State [ ]. The Council, the Commission **or the EEAS** may assign the task of manufacturing PRS receivers **or** the associated security modules **for their own use to bodies** established on the territory of a Member State [ ].

[ ]

5. **The Security Accreditation Board** may at any time **revoke** from a body referred to in paragraph 1 the authorisation it has granted to that body to manufacture PRS receivers **or** the associated security modules if [ ] the measures provided for in **Article 6(1d)(ii)** have not been complied with.

#### Article 8a

##### Common minimum standards

1. **The common minimum standards to be complied with by the competent PRS authorities referred to in Article 6 shall cover the areas set out in the Annex.**

2. **The Commission shall be empowered to adopt delegated acts in accordance with Article 12 concerning the adoption of the common minimum standards for the areas set out in the Annex and, if necessary, amendments updating the Annex to take account of developments in the programme, in particular with regard to technology and changes in security need.**

3. *On the basis of the common minimum standards referred to in paragraph 2, the Commission may adopt the necessary technical requirements, guidelines and other measures. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 13a(2).*

4. *The Commission shall ensure that the necessary steps are taken to comply with the measures referred to in paragraphs 2 and 3 and that requirements related to the security of PRS and its users and related technology are met, taking full account of expert advice.*

5. *In order to assist in compliance with this Article, the Commission shall facilitate a meeting of all competent PRS authorities at least once a year.*

6. *The Commission shall, with the help of the Member States and the European GNSS Agency, ensure that the competent PRS authorities comply with the common minimum standards, in particular by carrying out audits or inspections.*

Article 9  
Export *restrictions*

The export outside the Union of equipment, *technology and software regarding the use, development of and manufacturing for PRS* shall not be authorised other than *in accordance with Article 8a and point 3 of the Annex and* pursuant to the agreements referred to in Article 2(7) or under *agreements regarding* the detailed rules for hosting and operating reference stations **█**.

**█**

Article 11  
Application of Joint Action 2004/552/CFSP

**█** This Decision *shall be applied without prejudice to measures decided pursuant to* Joint Action 2004/552/CFSP **█**.

Article 12  
Exercise of delegation

3. The power to adopt delegated acts *is* conferred on the Commission subject to the conditions laid down in *this Article*.

*3a. The delegation of power referred to in Article 8a(2) shall be conferred on the Commission for a period of 5 years from ...<sup>12</sup> The Commission shall draw up a report in respect of the delegation of power not later than nine months before the end of the 5-year period.*

*3b. The delegation of powers referred to in Article 8a(2) may be revoked at any time by the European Parliament or by the Council. A decision of revocation shall put an end to the delegation of the power specified in that decision. It shall take effect the day following the publication of the decision in the Official Journal of the European Union or at a later date specified therein. It shall not affect the validity of any delegated acts already in force.*

*3c. As soon as it adopts a delegated act, the Commission shall notify it simultaneously to the European Parliament and to the Council.*

*3d. A delegated act adopted pursuant to Article 8a(2) shall enter into force only if no objection has been expressed either by the European Parliament or the Council within a period of 2 months of notification of that act to the European Parliament and the Council or if, before the expiry of that period, the European Parliament and the Council have both informed the Commission that they will not object. That period shall be extended by 2 months at the initiative of the European Parliament or the Council.*

Article 13a  
Committee procedure

1. *The Commission shall be assisted by the Committee established by Regulation (EC) No 683/2008. That Committee shall be a committee within the meaning of Regulation (EU) No 182/2011.*

2. *Where reference is made to this paragraph, Article 5 of Regulation (EU) No 182/2011 shall apply. Where the committee delivers no opinion, the Commission shall not adopt the draft implementing act and the third sub-paragraph of Article 5(4) of Regulation (EU) No 182/2011 shall apply.*

---

<sup>12</sup> Date of entry into force of this Decision.

**Article 14a**  
**Review and report**

*At the latest two years after PRS has been declared operational, the Commission shall report to the European Parliament and the Council on the adequate functioning and appropriateness of the established rules for access to PRS services, and, if necessary, propose amendments to this Decision accordingly.*

**Article 14b**  
**Specific rules for the implementation of the Galileo Programme**

*Notwithstanding the other provisions of this Decision, in order to ensure that the system functions smoothly, the access to PRS technology and the ownership or use of PRS receivers shall be authorised, subject to the respect of the principles laid down in Article 8a and the Annex, as regards the following:*

- the Commission, when acting as manager of the Galileo programme;*
- operators of the system derived from the Galileo programme, strictly for the purposes of complying with their remit, as laid down in a specific arrangement with the Commission;*
- the European GNSS Agency, in order to enable it to perform the tasks entrusted to it, as laid down in a specific arrangement with the Commission;*
- the European Space Agency, strictly for the purposes of research, development and infrastructure roll-out, as laid down in a specific arrangement with the Commission.*

**Article 14c**  
**Penalties**

*Member States shall determine what penalties are applicable when national provisions enacted pursuant to this Decision are infringed. The penalties shall be effective, proportionate and dissuasive.*

**Article 15**  
**Entry into force *and* application**

- 1. This Decision shall enter into force on the day following that of its publication in the Official Journal of the European Union.*
- 2. Member States shall start to apply Article 6 at the latest two years after the entry into force of this Decision.*

**Article 16**  
**Addressees**

This Decision is addressed to the Member States.

---

Annex

**Common minimum standards**

1. *As regards Article 6(1c), the common minimum standards for the use of PRS shall cover the following areas:*
  - (i) *PRS user groups organisation;*
  - (ii) *Definition and management of access rights of the PRS users and user groups of the PRS participants;*
  - (iii) *Distribution of PRS keys and related classified information between the GSMC and the Competent PRS Authorities;*
  - (iv) *Distribution of PRS keys and related classified information to the users;*
  - (v) *Security management, including security incidents, and risk assessment for PRS receivers and associated classified technology and information;*
  - (vi) *Reporting of detected potentially harmful electromagnetic interference affecting the PRS;*
  - (vii) *Operational concepts and procedures for PRS receivers.*

2. *As regards Article 6(1d) the CMS for the development and manufacture of PRS receivers or security modules shall cover the following areas:*
    - (viii) *PRS user segment accreditation;*
    - (ix) *Security of PRS receiver and PRS technology during research, development, and manufacturing phases;*
    - (x) *PRS receiver and PRS technology integration;*
    - (xi) *Protection profile for PRS receivers, security modules, and material using PRS technology.*
  3. *As regards Article 6(1e) and Article 9 the CMS for export restrictions shall cover the following areas:*
    - (xii) *Authorised PRS participants;*
    - (xiii) *Export of PRS related material and technology.*
  4. *As regards Article 6(1f) the CMS for the links between the GSMC and the Competent PRS Authorities shall cover the following area:*
    - (xiv) *Data and voice links.*
-
