ELEVENTH FESTIVAL OF FILM OF ARCHAEOLOGY OF AMIENS

REGULATION

The eleventh edition of the festival will take place from 10 till 14 April 2012 at “The Gaumont”.

Since 1990, by proposing to a wide public numerous documentaries, the successive festivals renewed the presentation of the archaeological heritage. Indeed, the film offers an attractive vision of our past, pressed on a scientific research cleared by the image of its repulsive aspect. It allows making discoveries of the excavation in the archaeological reconstruction by way of the works of laboratory, the various stages of the archaeological research. The meetings with the researchers and the best specialists allow exposing scientific problems; those with the directors become attached to the diverse aspects of the popularization of the archaeology.

Beyond its scientific aspect, the Festival is also very educational and it belongs to the cultural life time in which is joined Amiens, the city of cinema. Its decentralization, for several months, at the level of Picardy, allows touching a vast public, schools in particular. In the course of its editions, the festival also knew how to acquire a national and European fame, by weaving links with the other European archaeological festivals.
